SUMMARY

Enthusiastic Full Stack Developer with expertise in frontend and backend technologies, passionate about building responsive and user-friendly web applications. Strong understanding of UI/UX design, databases, and version control (Git, GitHub). Eager to apply my skills and grow in a dynamic IT environment.

WORK EXPERIENCE

Quality Engineer , Ashok Leyland Ltd, Hosur II **June 2023 to June 2024**

I have completed my one year Graduate Apprenticeship Training (GAT), in the department of Quality Engineer in Ashok Leyland Unit II, Hosur.

- Monitoring manufacturing processes to ensure adherence to quality standards.
- Inspected the products to identify defects and ensure compliance with specifications.
- Analyzed quality data to identify trends and areas for improvement.
- Collaborated with production teams to implement quality improvements.

TECHNICAL SKILLS

- **Programming:** Python, JavaScript
- **Frontend:** React.js, HTML, CSS, Bootstrap, Flexbox, Responsive Design
- **Backend:** Node.js, Express.js, Authentication & Authorization (JWT)
- **Databases:** MySQL, SQL, MongoDB
- **Version Control:** Git, GitHub
- **Other Tools:** REST APIs, JWT Authentication

PROJECTS ACCOMPLISHED

Mood Mail Generator

Tech Stack: HTML, CSS, JavaScript | **Deployment:** Vercel

Live Demo: <https://mood-mail-generator-psi.vercel.app/>

- Developed a web application that generates personalized email drafts based on user-selected moods, helping users quickly craft context-appropriate emails.
- Designed a clean and responsive user interface that allows users to select moods and instantly generate structured email content.
- Implemented dynamic email generation logic using JavaScript to automate message creation and improve writing efficiency.
- Deployed the project on Vercel for fast, scalable, and reliable web hosting.

Message Scheduler

Tech Stack: HTML, CSS, JavaScript | **Deployment:** Vercel

Live Demo: <https://message-sheduler.vercel.app/>

- Developed a web application that allows users to schedule messages to be sent at a specific date and time, improving productivity and communication planning.
- Implemented a message scheduling system with time-based input and automated message triggering for future delivery.
- Designed a responsive and user-friendly interface for creating, managing, and viewing scheduled messages.
- Deployed the application on Vercel for reliable cloud hosting and easy public access.

EDUCATION

Nxtwave Disruptive Technologies

July 24 - present

Industry Ready Certification in Full-stack Development

Bachelor of Engineering

2019 – 2023

Karpagam College of Engineering

- Specialization in Electrical and Electronic Engineering.
- **CGPA** - 8.11

XII State Board

2018 – 2019

Sri Vagisvari Vidya Mandir Matric Hr Sec School

- Specialization in Computer Science.
- **Percentage** - 59.3%

SOFT SKILLS

- Problem-Solving – Ability to analyze and resolve technical issues efficiently.
- Critical Thinking – Logical approach to debugging and optimizing code.
- Adaptability – Quickly learning new technologies and frameworks.
- Teamwork & Collaboration – Working effectively with cross-functional teams.

ACHIEVEMENTS/CERTIFICATION

- IRC Industry Ready Certificate – Nxtwave
- React.js Certification – Nxtwave
- Node.js Certification – Nxtwave
- JavaScript Essentials – Nxtwave
- Responsive Web Design using Flexbox – Nxtwave
- Build Your Own Dynamic Web Application – Nxtwave
- Introduction to Databases – Nxtwave
